PERFORMANCE EXHAUST

YAMAHA RHINO POWER EXHAUST SYSTEM

04-07 Yamaha Rhino 660

Brushed T-304 Stainless Steel

Corona, Calif. (Feb 27th, 2008) Gibson Performance, the leader in Performance Exhaust products is excited to introduce a new Slip on performance Exhaust System for the 660 Yamaha Rhino. Each system is available in brushed stainless steel or a black ceramic coated finish and features Gibson's Non Packed Suspended Flow (SFT) Superflow muffler with a Louvered & Chambered internal Muffler core. Gibson has also incorporated improved OEM style heavy duty rubber mounting points and a Compression spring fitting, allowing for Maximum Strength and durability during the toughest terrain. Gibson's Slip on Rhino exhaust system is a direct fit replacement and allows for easy bolt on installation.
